## Education and Certifications

---

- **Certificate: HTML, CSS and JavaScript for Web Developers**, Johns Hopkins University **2023**
- **Certificate: International Engineering, German**, University of Colorado, Boulder **2012**
- **B.Sc. Computer Science**, University of Colorado, Boulder **2008 – 2012**

## Projects

---

- **BuyRule** – Parody eCommerce application featuring items and equipment from *The Legend of Zelda* videogame series. Built with React and TailwindCSS, powered by the unofficial [Hyrule Compendium API](#). See source on [Github](#).
- **Bard's Bookshelf** – Stylish and responsive literature blog, powered by Gatsby and Decap CMS (formerly NetlifyCMS), styled with TailwindCSS. Built as a template to enable fast, CMS-powered business and blog sites. See source on [Github](#).
- **Football Recall** – Memory Game sourcing NCAA top 25 data from ESPN API. Built with React, styled with Bootstrap and vanilla CSS. See source on [Github](#).
- **Wetter** - React and Bootstrap-based weather application, using weatherAPI. Created to explore React, consuming and analyzing public REST APIs, and asynchronous JavaScript. See source on [Github](#).
- **Prio** – Vanilla JavaScript and Bootstrap-based task list application. See source on [Github](#).
- **QuestMap** - Interactive map tool for Tabletop RPG players, built with Django; map integration with Leaflet.js. Intended to increase game immersion with interactive maps, mimicking UX of classic adventure video games. See source on [Github](#).
- **WisdomBall** – A simple “fortune-teller” web application, providing users with a randomized snippet of wisdom. Built to explore simple HTML/CSS/Javascript concepts. See source on [Github](#).
- **Aliens!** – Python-based *Space Invader* clone created with PyGame. Built to explore basic concepts in game development and extending my knowledge of Python. See source on [Github](#).

## Interests

---

- I write and publish TTRPG supplements, particularly adventures for *Dungeons and Dragons* 5<sup>th</sup> edition. Most of my work is available on the [DM's Guild](#) or [DriveThruRPG](#) marketplace.
  - I collect and read works of classic fiction, especially Fantasy, Sci-Fi and Horror.
  - I am conversational in German, and maintain an interest in German culture.
-
